

Swimmer movements:

Swimmers should enter poolside via the changing rooms and locate themselves where indicated – Newcastle & Aquajets will be located in the Small Pool area. Notices will be placed appropriately.

When notified, they must proceed to the marshalling area

Only marshalled swimmers are allowed to proceed down the spectator side of the pool (apart from during warm-up sessions)

After their swim, they must return to their team directly from the start/finish area up the window side of the pool

The boom is out of bounds to swimmers/coaches at all times

The boom area is **NOT** a play area
