The converted times above represent the published qualifying times converted from long course (50m) to short course (25m) using the online tool available at [www.sportsys.co.uk](http://www.sportsys.co.uk). Note, it is possible to get a different result when a swimmers PB is converted from short course to long course and compared to the published long course times. If a time is achieved and is within 1/10th of the converted time above we recommend the time from rankings is converted to long course and then compared to the unconverted qualifying time above
