The converted times above represent the published qualifying times converted from long course (50m) to short course (25m) using the online tool available at www.sportsys.co.uk.

Note, it is possible to get a different result when a swimmers PB is converted from short course to long course and compared to the published long course times.

If a time is achieved and is within 1/10th of the converted time above we recommend the time from rankings is converted to long course and then compared to the unconverted qualifying time above
